

# 3045 EMERGENCY VEHICLE DRIVER TRAINING PROGRAM (VFIS)

## Objective

Present the necessary classroom, competency course training, and testing for new and existing emergency vehicle drivers. The program will verify proficiency in the knowledge and understanding of, as well as, the practical application to emergency vehicle driving as per *NFPA 1002 Standard on Fire Apparatus Driver Operator Professional Qualifications*.

## Prerequisite

Valid driver's license

## Target Group

New and experienced apparatus drivers.

## Methodology

Classroom discussion, exercises, audio visual training and competency course driving.

## Content

- Extent of the problem
- Importance of SOG's
- Vehicle dynamics
- Emergency vehicle operations
- Personnel selection
- Legal aspects
- Vehicle inspection and maintenance
- Emergency vehicle competency course

## Certification

Certificate of attainment will be issued at the completion of the course.

## Enrollment

Minimum 10 students  
Maximum 20 students

## Duration

16 hours (one weekend)

## Location

The location for this course will be in your local area. It will be your responsibility to supply classroom facilities, and an area large enough to set up the competency course. (Large parking lot)

## Note

The recommended manual for this Course is [Pumping Apparatus Driver Operator Handbook 2<sup>nd</sup> Ed.](#)

This course is designed for you to be able to use your own vehicles. In addition to a large parking lot you will also be responsible for supplying traffic cones to mark the course layout. (120 traffic cones needed).
